

PyroGuard™

FIRE-RETARDANT-TREATED LUMBER AND PLYWOOD WARRANTY

Hoover Treated Wood Products, Inc. warrants PyroGuard™, including Pyro Plus and Pyro Plus F, fire-retardant-treated wood against defects in manufacture where the product is properly installed up to a maximum of 20 years. This warranty entitles the holder to repair or replacement of defective material, including the reasonable cost of labor and materials.

Hoover Treated Wood Products, Inc. warrants that its' PyroGuard™ interior fire-retardant-treated wood is manufactured under Underwriters Laboratories independent third-party Follow up inspection Service and that it meets or exceeds the following code requirements for interior fire-retardant-treated wood:

- International Building Code
- International Residential Code
- Military Specification MIL-L-19140

Further, PyroGuard™ treated wood products will meet or exceed the relevant ASTM Standards (E84, D3201) for interior fire-retardant-treated lumber and plywood.

PyroGuard™ fire treated wood can only be used for interior applications involving dry conditions of use above grade and not exposed to weather, dampness or wetting. It shall be stored, protected, applied and used during construction in accordance with Hoover Treated Wood Products, Inc.'s specifications and recommendations. Use of PyroGuard™ fire retardant-treated-wood as roof sheathing without proper ventilation for moisture control invalidates the terms of this warranty. No other warranty, expressed or implied, including warranties of merchantability or fitness, shall apply.

1450 Greene St. Ste. 210 Augusta, GA 30901 (706) 595-5058
